**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We need more competition in the internet provider space. Currently, at our home, we have only two options for high-speed Internet that is embarrassingly slow and overpriced. AT&T provides landline service for telephone, but will not provide internet access here. Cox communications wants \$80,000 to begin servicing our neighborhood. The ridiculous part of this frustrating tale is that we live just outside the city limits of the capital city of Kansas and do not have reliable high-speed internet access. We get by with what is available, but as a home-based worker, it has a negative affect on my livelihood.

Thank you for your consideration and thank you in advance for recognizing the value of competition in the marketplace.
